We are going in with our CSR funding, and urge you all too. People in general and School going children in particular, with Visual Loss need us. Let us respond to their unspoken needs.

Vision Trust

Has an experience of about two decades in the provision of quality eye healthcare to the underprivileged and deprived segment of the country.

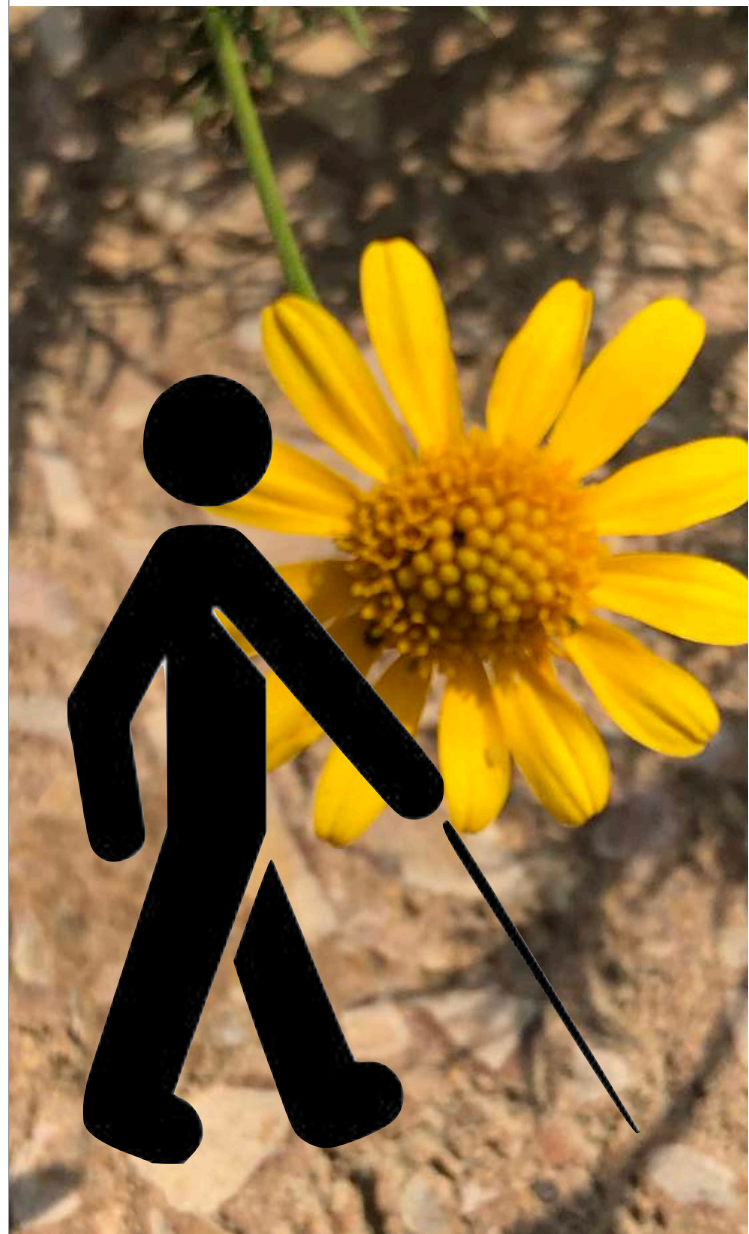

We believe and are working for the same objectives as WHO's Sustainable Development Goals, those defined by International Agency for the Prevention of Blindness and People Centred Eye Care initiatives.

Our point of confluence is **ELIMINATING BLINDNESS**, and this is what binds us in this common cause.

We have a vision to pursue and have project plans.
